## Attainment of Course Outcomes

**Describe the assessment processes used to gather the data upon which the evaluation of Course Outcome is based.**

Assessment of course outcomes was carried out through various tools to identify, collect and prepare data for the evaluation of course outcomes.

Assessment tools are categorized into

- DIRECT ASSESSMENT TOOLS
- INDIRECT ASSESSMENT TOOLS

### **Direct Assessment Tools:**

In the direct mode, the course outcomes are evaluated in view of the performance of students in sessional/internal examination, continuous mode of assessment, and university examination.

DIRECT ASSESSMENT TOOLS		
S.No	Direct Assessment	Method Description
1	Continuous assessment	For the theory courses, assignments and attendance are considered as a tool for evaluation. In practical courses, attendance and viva are considered as tools for evaluation.
2	Sessional examination	As most courses comprise theory as well as practical, sessional exam/internal examination is done for both separately. Course outcome attainment was measured based on students' performance in three sessional examinations for the annual pattern and two sessional examinations for the semester pattern for each course as per university ordinance. Students' performance in these exams is considered for evaluation. Sessional exams are planned in such

		a way as to cover the complete syllabus and all course outcomes.
3	Assignment	Attainment level is measured in terms of student performance in the assignment. The number of assignments given for each course ranges from 2 to 5 depending on the course.
4	Annual examination and end semester examination in Theory and Practical.	The attainment level is set considering the students' performance in the Annual and end semester examination conducted by the university.

### Indirect Assessment Tools:

Course end survey is considered a tool for the indirect measurement of course outcomes.

Here, the course outcomes are evaluated by the student in the form of a survey and the results are analyzed for the attainment of course outcome.

INDIRECT ASSESSMENT TOOLS		
Sl. No	Indirect Assessment	Method Description
1	Course end survey	Collect the information about the course outcome from the student after completion of the Semester/ Year

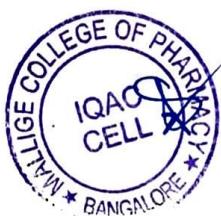

Attainment of **course outcome** in terms of percentage has to be calculated from the following i.e. sessional examination, and continuous mode of assessment, and it is consolidated based on course outcome.

The following methods were adopted for measuring the course outcome attainment for all the courses for set attainment levels

### Set attainment levels for Course outcomes in Internal Assessments:

Below said attainment levels are considered in all methods of assessment.

**Attainment Level 1:** Less than 40% of students scoring less than 40% marks out of the

# MALLIGE COLLEGE OF PHARMACY

#71, SILVEPURA, CHIKKABANAVARA POST, BANGLORE - 560 090

(Recognized by AICTE, PCI, New Delhi, RGUHS Bangalore)

Web: [www.mallige.ac.in](http://www.mallige.ac.in), E - mail: [mcpbangalore@ymail.com](mailto:mcpbangalore@ymail.com), Ph: 080-28446666, 9353729763

relevant maximum marks is considered to be the attainment of “1”

**Attainment Level 2:** More than 40% of students scoring 40-59 % marks out of the relevant maximum marks are considered to be the attainment of “2”

**Attainment Level 3:** 60% of students scoring 60% or more than 60% marks out of the relevant maximum marks is considered to be the attainment of “3”

### **Set attainment levels for Course outcomes in University Examinations:**

#### **Attainment level**

Below said attainment levels are considered in all methods of assessment.

**Attainment Level 1:** Less than 50% of students scoring less than 50% marks out of the relevant maximum marks is considered to be the attainment of “1”

#### **Attainment Level 2:**

More than 50% of students scoring 50% and more out of the relevant maximum marks is considered to be the attainment of “2”

**Attainment Level 3:** 60% students scoring 60% and % marks out of the relevant maximum marks is considered to be the attainment of “3”

#### **Course outcome attainment**

For calculation of course outcome attainment, 70% weightage is given to the sessional examination, and continuous assessment and 30% weightage is given to the annual exam and end-semester examination.

For example:

Attainment through University Examination: Substantial i.e., 3

Attainment through Internal Assessment: Moderate i.e., 2

Assuming 70% weightage to Internal assessment and 30% weightage to, the University examination.

Attainment calculations will be (30% of University level) + (70% of Internal level ) i.e.

$$30\% \text{ of } 3 + 70\% \text{ of } 2 = 0.9 + 1.4 = 2.3$$

## Attainment of Program Outcomes

Describe assessment tools and processes used for assessing the attainment of each PO

Assessment of course outcomes was carried out through various tools to identify, collect and prepare data for the evaluation of course outcomes.

Assessment tools are categorized into

- DIRECT ASSESSMENT TOOLS
- INDIRECT ASSESSMENT TOOLS

### Direct Assessment Tools:

In the direct mode, the course outcomes are evaluated in view of the performance of students in sessional/internal examination, continuous mode of assessment, and university examination.

DIRECT ASSESSMENT TOOLS		
Sl. No	Direct Assessment	Method Description
1	Continuous assessment	For the theory courses, assignments and attendance are considered as a tool for evaluation. In practical courses, attendance and viva are considered as tools for evaluation.
2	Sessional examination	As most courses comprise theory as well as practical, sessional exam/internal examination is done for both separately. Course outcome attainment was measured based on students' performance in three sessional examinations for the annual pattern and two sessional examinations for the semester pattern for each course as per university ordinance. Students' performance in these exams is considered for evaluation. Sessional exams are planned in such a way as to cover the complete syllabus and all

		course outcomes.
3	Assignment	Attainment level is measured in terms of student performance in the assignment. The number of assignments given for each course ranges from 2 to 5 depending on the course.
4	Annual examination and end semester examination in Theory and Practical.	The attainment level is set considering the students' performance in the Annual and end semester examination conducted by the university.

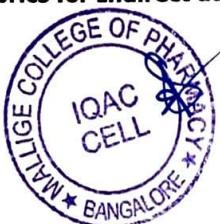

For Program outcome attainment, course outcome attainment values obtained from the above said tools were taken. All course outcome attainment values as consolidated and program outcome attainment were calculated as per the mapping values of COs to POs. All the above tools are considered direct assessment tools for the evaluation of Program Outcomes.

#### Indirect Assessment tools:

In the indirect assessment method, the program outcomes are evaluated based on the Employers' survey, Exit survey, and Course end Survey.

INDIRECT ASSESSMENT METHOD		
Sl. No	Indirect Assessment	Method Description
2	Employers' feedback survey	Collect various information about the graduate skills, capabilities, and opportunities
3	Exit Survey	Collect the various information about their opinion and observations about the program from the final year students
4	Course end survey	Collect the information about the course outcome from the student after the completion of each Semester/ Year

#### Rubrics for Indirect attainment

  
**PRINCIPAL,**

## Surveys

In the employer's survey and exit survey following rubrics was considered for program attainment calculation.

Level 3: 70% or more survey participants were given 4 or 5 marks

Level 2: 60% or more survey participants were given 4 or 5 marks

Level 1: 50% or more survey participants were given 4 or 5 marks

In the course-end survey, the average score was considered for program attainment calculation.

## Student Exit Survey

PO No.	PO Description	Parents feedback questions
PO1, PO2, PO3, PO5, PO5, PO6 PO7, PO9, PO10	Pharmacy Knowledge Planning abilities Problem analysis Leadership Skills Professional Identity Pharmaceutical Ethics Pharmacist and Society Environment and Sustainability	Rating the quality of academic resources, facilities, and teaching and learning methodologies (teaching, course material, etc.)

		subjects other than mentioned in the syllabus, etc.
--	--	-----------------------------------------------------

The direct attainment level of a PO is determined by taking the weighted average across all course outcomes addressing that PO.

Fractional numbers were also considered.

Example:

1. It is assumed that a particular PO has been mapped to courses.
2. The attainment level for each of the courses was calculated based on the weights of respective CO-PO matrices.
3. Attainment for a particular PO was calculated by taking weighted average of all courses addressing that particular PO.
4. PO attainment level will be based on attainment levels of direct assessment and indirect assessment.
5. While deciding on overall attainment level, 80% weightage has given to direct assessment and 20% weightage to indirect assessment through surveys (employer survey and student exit survey were considered for 15%, and course end survey was considered for 5%).

**The set attainment level for Program outcome is 1.8 (60%)**
