World Pharmacists Day

Every year, 25th September is celebrated as World Pharmacists Day (WPD) globally as designated by the International Pharmaceutical Federation (FIP) Council. This day was celebrated in Mallige College of pharmacy in every year. We organized walk-o-thon in silvepura along with students the motive of the celebration to signifies the importance of a pharmacist right from manufacturing to final delivery of the product to the patient and thus improving access to medicines.

World Pharmacists day becomes all the important in today's context as there has been greater emphasis and awareness being generated today about Adverse Drug Reaction Induced by Drugs (specific ADR). Government of late has equipped healthcare professionals on know-how on ADRs through specific training programmes which marks a positive and impactful step in this direction.

This has become the need of the hour a drug-induced disease is the unintended effect of a drug that results in mortality or morbidity with symptoms sufficient to prompt a patient to seek medical attention and/or to require hospitalisation. Despite best efforts to ensure the safety and effectiveness of all drugs, millions of patients each year develop drug-induced diseases that increase the overall healthcare cost. That is why, pharmacists need to get a policy friendly environment to offer their professional services in the right manner, which will be a boon for the healthcare system in India

The pharmacists are the backbone of health care in many different settings. Providing care does not begin in community or hospital pharmacies but taking care of patients starts with recognizing the health issues of populations and developing medicines, policies and education to tackle them. Pharmacists act at the very beginning of the process; when the first molecule that effectively treats a disease is identify

Sports is such an activity that it can be taken up by anyone; at any age and any point in life. Adults, children and elders – everyone alike can take part in sports. Many regard sports as a mere co-curricular or extra-curricular activity in schools. However, in reality, sports play an equally important role as does education in a person's life. To achieve overall and all-round development in life, one should be well-versed in both sports and culture. While training sharpens the mind, sports sharpens the body and fitness. Thus, both are essential.

There are numerous advantages of involving oneself in sports. First and foremost, as known by all and very definitively, competitions increase the physical fitness of an individual. Additionally, sports also contribute to building stable mental well-being of a person. Various researchers show that people who are in the daily practice of sports in any form record better mental as well as physical health. Moreover, sports also eliminate the risk of a person catching diseases or facing any bodily interruptions. Competitions increase immunity and increase people's stamina.

Sports also influence the life expectancy of people, increasing the potential years to live of an average human individual. All of us are associated with games somehow or the other in our lives. While at schools and as kids, we were exposed to sports in various forms. However, since many institutions do not make it obligatory to pursue sports in higher academics, some of us are dissociated from its practice. However, a lot of people take up games further, on their own accord. Some people even decide on pursuing a career in the field.

Kargil Vijay Diwas

Mallige college of pharmacy, celebrated the 'Kargil Vijay Diwas' on July 26, 2021 to remember India's war victory and to pay tribute to the Kargil's martyr who were the symbol of courage and sacrifice for safeguarding the borders of our country. It was this day in 1999, when India recaptured the heights of Kargil from Pakistani infiltrators, ending the 60-day 'Operation Vijay' successfully. Indian soldiers showed tremendous courage and fought till the end to recapture the Kargil outposts from the Pakistanis. The students commemorated the day with speeches on bravery of soldiers, sang patriotic songs and filled the entire atmosphere with patriotism. The teachers explained the significance of 'Kargil Vijay Diwas' to the students, followed by inspirational and emotional videos of the war, which made us feel proud of our soldiers and our country.

Teachers and students together paid homage to the soldiers who lost their precious life in making our country safe and secure. Patriotism is a social value and its feeling when inculcated at the school level ensures that students become responsible citizens of the nation. Following are the glimpse of the activities of the day:
